**Powerful Performance, real reliability**

See our assembly video online at [www.mach2tires.com](http://www.mach2tires.com)

**Quality**

All of Mach2 tires are made in the U.S.A. at Seljan Company, one of the largest rotomolding manufacturers in the United States. Together with Seljan and Dow Chemical, we use the highest quality branded prime materials available.

Pre-engineered accuracy and consistent specifications assure every tire to fit your rim for powerful performance and real reliability.

Measurements are shown in depth x diameter.

Crucial construction
Our construction is unparalleled. The 100% recyclable polyethylene material makes our tires tough, long lasting, and extensively resilient. The material contains an agressive UV inhibitor with a rating of UV12+, making them resistant to UV rays, agricultural chemicals, and crop fertilizers. Mach 2 tires have been in fields since 1996.

Why White?
Actually, our tires are not white. They are made from 100% virgin/branded prime natural polyethylene material from Chemical. Pigments are foreign objects to the plastic, and thus are considered contaminants. In order to obtain the best physical properties in our product, we have strategically chosen to avoid adding color to our tire.

Made in the USA
The Mach 2 Tire and its correlating parts are made in Lake Mills, Wisconsin in our own 502,000 sq. ft. facility. We carry a mixed inventory at all times giving us the ability to ship within days. Indicative of our high expectations, we offer a 7 year pro-rated warranty, the best in the plastic center pivot tire industry. We will work to deliver to you the highest quality product at the lowest and most competitive prices possible.

TRAC-1
Trac-1 tires are used in areas where you may have problems getting stuck. They work well in sticky-clay and muddy soil.

TRAC-2
Trac-2 tires are used as a replacement to traditional rubber center pivot tires. They will float similar to traditional tires in most soil types.

TRAC-3
Trac-3 tires are designed to provide more flotation in loose sandy soils.

Why More Farmers switch to Mach2 as a replacement tire, than any other No Flat Tire in the Industry
The Leader
Mach 2 stands alone in the NO Flat Pivot Tire Industry. With over 14 sizes, 3 tread designs and a 7 year warranty; your next flat tire can be your last.

Our tire allows you to have peace of mind that flat tires are a thing of the past.
